

Naugatuck State Forest

Bird Checklist

The Audubon Society designated Naugatuck State Forest an Important Bird Area (IBA) due to the wide diversity of bird habitats, early successional, shrubland, and young forest, created by active forest management such as timber harvests and prescribed burns.

*CT Comprehensive Wildlife Conservation Strategy (CWCS) Important Birds **

M = Migrant
Y = Year Round
W = Winter
B = Breeding (Most likely breeds in appropriate habitat in or near Naugatuck State Forest)

C = Common
U = Uncommon
R = Rare

Mockingbirds and Thrashers	
Gray Catbird*	B M C
Northern Mockingbird	B Y U
